PUBLIC INTEREST TURNS TO RAILS

Stock Again Leads Market, with Good Price Advances.

INDUSTRIALS IRREGULAR

Lackawanna Steel Center of Attraction During Last Hour, Register-

New York, Sept. E.—Railroad shares continued in leadership of the stock market today, with advances of from one to two points that placed prices near the high level established prior to the sinking of the Lusitania. Erokers reported that the public were displaying a disposition to follow the upward trend in the rails just as they have in the industrials, and expectation is that Monday's session will advanced by the sinking of the Lusitania. Erokers reported to the Commissioners yesterday. Last year's operations amounted to \$8.599.932, as compared with \$9.544.362 for the Iwelve months preceding, a decrease of \$944.379. Industrial shares were teregular, spe-

cialties like American Beet Sugar and last year. American Woolen being reactionary, whereas Central Leather and American Hide and Leather were in demand, the former at a new high price for this year. A revival of activity and strength in the oppers created a favorable impression. Opening prices displayed overnight ains, which were enlarged during the first hour. Week-end profit-taking ap-peared in substantial volume in the sec-ond hour, but orders were more than sufficient to offset realizing. Closing prices were fractionally under the best Railroad Earnings Big.

Lackswanna Steel was the center of attraction in the last hour, scoring an advance of about 10 points and selling at the new high price of 79. Rumors

he taken into the new steel combina-

tion, but the sharp rise was really the result of the small supply of stock,

NEW YORK SPOT COFFEE.

COTTON MARKETS.

New York, Sept. 28.—New high records for the season were again established in the cotton market here teday. January touched 12.06, against 12.92 yesterday's high price and December 11.39, compared with 11.57, yesterday's top. There were periods of heavy realizing which gave the market an irregular, unsettled appearance at times, but a demand from Wall Street, the South and commission houses easily took care of all offerings.

In the last hoor there was a fresh wave of general buying, jurily based on an official report showing further vains over the entire State of Texas which carried prices to a net advance of about 25 points. Henewed realizing and selling by Liverpool brought about a reaction but near the closs new buying appeared and the final tone was strong at a net assum of 20 to 25 points. The spot article advanced 15 points to 11.70 with sales of 500 bales. Weather, crop and spot news continued buillish on the average. Cables from Liverpool were better than had been expected. Private advices said that there were some straddle buying and short covering in the English market.

Rumors were current that a builsin condition report would be issued shortly by a leading house which publishes mouthly statements on the progress of the crop.

Spot at Liverpool advanced II points to the basis

which pursues and the crop.

Spot at Liverpool advanced II points to the basis of 6.76d for irid-upland. Futures there were irregular at the close at a net advance of 8 points on September and October-November and of 1½ to 5½ points on loter months. According to the Chronicle the total visible supply is 3,985,813 bales against 2,850,892 bales last year.

French obscene farces and English thin soups were, in 1913, not less superfluous than they or their German copies would be in 1916. That the German stage must, above all, cultivate German art goes without saying. Off sources are rich, but rubbish remains rubbish, even when it is prompted by the noblest thought. And in spite of the world war and the rivalry of races, there are innumerable works of art in the enemies' countries which tower high in the skies. Let them all be high in the skies. Let them all be brought over here. * * For art creates culture, and culture can and must be, in the highest sense, international and limitless.

Granville Barker Arrives.

Granville Barker, the leading English roducing manager, who in conjunction with Lillah McCarthy and Percy Bur-ton will present Bernard Shaw's fable play, "Androcles and the Lion" and Ana-tole France's comedy. "The Man Who Married a Dumb Wife" in the leading American cities this season, arrived in New York last Monday on the Rotter-dam from France, where Mr. Barker dam from France, where Mr. Barker has been doing Red Cross work. Mr. Barker has come to America specially Barker has come to America specially to stage and superintend rehearsals of the Shaw and France plays, which spea here on October 11, and will be seen in this city with O. P. Heggie and practically the entire London and New York company. The productions, which are in the "new art" style, are the same as were seen during Mr. Barker's season at Wetlend's Theoretain New York and St. Vallack's Theater in New York and St. ames' Theater in London.

David Rittenhouse, poincer astronomer of Philadelphia and first director of the United States Mint, probably never dreamed of a descendant, who would aspire to stardom, and incidentally get a corner right across from the United States Treasury in Washington. Such is the pleasant lot of Florence Rittenhouse, who, after a summer at the Jefferson Theater, Portland, Me., under direction of Berthram Harrison and Jessie Bonstelle, was selected as leading addy of Poli's, Washington, and has already scored as the running mate of that most popular stock star of the Capital City, A. H. Van Buren. Plc sant Lot of Miss Rittenhouse.
